Professional Profile

Creative graphics designer, fluent in software like Adobe Illustrator, Adobe Photoshop, Adobe Premiere Pro, Adobe Lightroom, and 3d software such as blender. Also, fluent in MS Office Suite. Flexible to work and will complete the given task in due time with the results as expected.

Aged 23, I have been doing graphics designing for the past 5 years and I am quite fluid at it. I am smooth in the above-mentioned software and flexible to work with. I have made various digital portraits, wallpapers, as well as logos for friends as well as clients, and they were quite impressed by my work.

Core Skills

- Fluid at the above-mentioned software
- Creative
- Multi-tasking
- Fluent English
- Wide vocabulary knowledge
- Flexible to work with

Additional skills:

- Photography
- Photo editing and image manipulation
- Hardworking
- Team worker
- Good at creating concepts
- Experienced in blogging

Career Summary

I have made various digital artworks and logos and I am certain that you will like them as well. I have the skills to work with all the software mentioned above... Not only that, I can work in other fields as well if necessary like; article writing and photography since I am fluent in English as well as have experience in photography respectively. I have a brief experience with blogging as well and can write articles. I have also worked for a bag manufacturer "Unar" as their social media manager, (@_unar__ on Instagram) My job was to design posts for their Instagram page and manage their social media, talking to the customers and giving them a brief description of the products and what could be suitable for them according to their

needs. I have also worked with iCLEAN technologies and created many bottle labels included in the portfolio. Not only that, but I have also designed skins for laptops, and phones and designed various kinds of stickers as well.

Educational Qualification
